Sweetly Original

There's a new kind of sweetener in town that's *all* the rage. It tastes great, has a great crunchy texture and can be added to almost any kind of food (including desserts, coffee, plain yogurt, etc.). New **Organic Maple Flakes** by are made from pure maple syrup and contain about a third of the calories than white sugar; they're original AND healthy! You'll find them in a cool, refillable grinder (\$8.99), as well as in a standard package (\$3.99).

Available at most supermarkets and natural food stores
